# MEME MAFIA

*Power. Influence. Wealth.*

The Meme Mafia project and supporting ERC20 digital assets celebrate the incredibly popular meme culture within crypto with an added Mafia-style twist. Organized families and communities can accomplish amazing things! Power, wealth, and influence reign supreme within memes. Anyone saying otherwise underestimates the meme community!

This whitepaper covers the core features of the Meme Mafia project and its ERC20 digital assets, the MEMEMAFIA token and the GRUMBLE token. Key features:

- **Built to support Memes**, awesome tokenomics, safe and strong contract features, long-term LP locks with renounced contracts, and the MEMEMAFIA and GRUMBLE tokens integrated together to provide a mutually supporting environment.
- **Meme sector voting & buybacks** for the top 10 top-ranked ERC20 meme projects and their key stats, buybacks of those tokens occur every 90 days for staking with ArchAngel.
- **Meme Mafia Army (MMA) NFT Collections** with 1-of-1 characters in extremely limited collections. Each character is unique and will never be reproduced in subsequent MMA collections. Ownership of the generational NFTs also makes owners eligible for massive drawings and rewards, all fed by MEMEMAFIA and GRUMBLE txn taxes.
- **Pay Off Wallets** are designated for each MMA NFT collection & collect Ethereum for 90 days from transaction taxes. The countdown timer is published on the Pay Off page. Once the timer expires, Pay Off NFT owners evenly share 100 of that wallet's contents.

The objective of Meme Mafia is to **sustain the fun-loving meme culture within crypto while offering opportunities to trade digital assets on the open market.** Everyone has their favorite memes that they support, and Meme Mafia provides a space for the entire meme community to support their projects and have some fun while executing their digital asset strategies.

**Welcome to Meme Mafia.**

**Welcome to The Family!**

Grumble is a crazy, fun-loving family of memes from the mighty Degen mountains. Their wild attitudes energize the entire meme community with no regard to the fuzzy dogs or slimy frogs of past cycles.

Grumble incorporates all the best qualities to create the perfect meme. There are tons of zeros to burn using an insanely efficient ERC20 smart contract. Contract is verified and renounced with no blacklist function. Taxes are just 1% on buys and sells and 0% on transfers. 100% of collected taxes from transactions are used for buybacks and burns, marketing, community fun, and adding INSANE rewards to the super-limited NFT collection from Meme Mafia. Grumble pounced in with a fair stealth launch with no presales, airdrops, or team tokens.

The voting period for the posted block ends when the countdown timer reaches zero. At that time, Meme Mafia will spend **50% of all transaction taxes on token Buy Backs** of the top two voted projects! The meme sector is then reevaluated, the timer is reset for 90 days, and a new Top 10 list (live prices and voting) is posted on the website.

It is **highly likely** that new ERC20 projects will enter the Top 10 as the list resets every 90 days based on meme project market cap values. Newly launched projects might experience rapid growth and could end up in the new Top 10 list for voting and buy backs. Which families will work their way up to that level?

Be sure to **vote every day** as the results of your voting could add significant value to your favorite project(s) and have a positive impact on the value of their digital asset!

# MEME MAFIA

## Buy Backs & Staking

Project voting is super important because 50% of the Meme Mafia token transaction taxes are used to execute token buybacks of the top two ERC20 vote getters.

When the voting timer reaches zero, the Meme Mafia Project Manager will take 50% of all transaction taxes accumulated during that timeframe and will purchase the native tokens of the two vote winners (25% of taxes p/winner). These buy backs could be significant depending on MEMEMAFIA transaction volume.

100% of the purchased tokens are then delivered to the ArchAngel Token Staking Pool where they are added to the Harvest for the next staking pool cycle. Those holders with staked ARCHA earn a percentage of the harvest rewards, and all tokens earned can be harvested to their wallets. The wallet that provided the tokens for staking is the wallet that receives the harvested rewards.

Joining the ArchAngel staking pool is very easy. When you stake your ARCHA tokens, you earn tokens from **every ARCHA ecosystem project**, AND now, with Meme Mafia, stakers also earn the **top ranked and most popular meme tokens in the entire meme sector**.

1. Buy ARCHA (ERC20) on Uniswap (use slippage of 6% or 7%):  
0x36e43065e977bc72cb86dbd8405fae7057cdc7fd

2. When the staking pool is open for new staking, visit the ArchAngel official website (<https://archangeltoken.com/>) and click on the **Staking** page link.

3. Connect your wallet, read and accept all the terms, and click on the **Gabriel V3 pool**.

4. Enter the number of ARCHA tokens you want to stake (or use Max for all, 250T max). You will be required to sign two transactions in your wallet, one to interact with the staking pool and the second approval is to transfer tokens to the pool. Manual Harvest occurs every 90 days and Harvest normally lasts for 2 weeks (website always posts dates).

## Meme Mafia NFT Collection Meme Mafia Army (MMA) NFTs

The MMA NFT Collection contains **ONLY 1-of-1 NFTs**. They can be used for PFPs, or you can sell or trade them with other meme enthusiasts and NFT investors. You may end up with a **Pay Off NFT** which means you own a percentage of that collection's dedicated **Pay Off wallet**. You may also land a **Kick Back NFT** and earn \$25-\$250 in USDC when that collection's timer expires.

**Unique & Rare:** The MMA provides meme enthusiasts with a unique meme character that exist no other place within the meme world. **These .03 Eth NFTs are all 1-of-1** and will never be minted again. Browse through the Generation collections to find that one you like. Hold your NFTs so that you are eligible for rewards and drawings **reserved ONLY for NFT and token holders**. Transaction taxes from GRUMBLE feed massive rewards back to holders, so get your NFTs and tokens early and hold them!

NFT collections are released by Generation with associated **Pay Off** wallets (see next page). New characters are added to each collection, but the collections will NEVER exceed 250 NFTs.

## The Pay Offs

### AND GRUMBLE AWARDS

#### Pay Offs and Kick Backs

Pay Offs and Kick Backs are rewards that are hidden within our Meme Mafia Army (MMA) NFT collections. Each collection contains special NFTs with content that is unlocked on OpenSea by the Owner upon purchase. Unlocked messages reveal if the purchased NFT is a Pay Off or Kick Back NFT.

#### “Pay Off” NFTs

Each MMA NFT collection has a fixed number of “Pay Off” NFTs. Those lucky enough to land a Pay Off NFT earn an even split of that collection’s Pay Off wallet once that wallet’s 90-day timer expires. If there are 10 unlocked Pay Off NFTs and the wallet’s Eth balance is 2.0 Eth, then each Pay Off NFT owner receives .20 Eth.

#### NFT Collection Pay Off Wallets

Each MMA NFT Collection is assigned a Pay Off wallet, and that wallet receives Ethereum from MEMEMAFIA and GRUMBLE transaction taxes. Eth builds up in the Pay Off wallet for 90 days, and when the timer expires the holders of all Pay Off NFTs evenly split the proceeds of that wallet. Unsold/undiscovered Pay Off NFTs do not count, only those sold when the timer expires. Individual wallets can own multiple Pay Off NFTs and their share of the Pay Off wallet is distributed accordingly.

#### Kick Backs

Each MMA NFT Collection (starting with Gen 2) contains a fixed number of Kick Back NFTs. Upon purchase, the NFT owner reveals the Locked Content field on OpenSea to find out if the purchased NFT is a Kick Back NFT. Kick Backs award USDC prizes ranging from \$25 to \$250, and the rewards are paid to the NFT Owner when that collection’s Pay Off wallet timer expires. Individual wallets can hold more than one Kick Back NFT.

#### “Kick Back” NFTs

Grumble has added 20 “Kick Back” NFTs to the MMA Generation 2 NFT collection! Once purchased, unlock the special content on OpenSea to see if your purchased NFT has won one of the below USDC prizes:

- 8 Gen 2 NFTs awarded \$25 in USDC
- 6 Gen 2 NFTs awarded \$50 in USDC
- 4 Gen 2 NFTs awarded \$100 in USDC
- 2 Gen 2 NFTs awarded \$250 in USDC

USDC prizes will be delivered to the NFT holders on 11 December after Grumble’s Grand and Quarto drawings are finished.

#### .25 BTC “Quarto” Drawings!

Grumble’s “Quarto” drawings will give away .25 BTC in three drawings for .05 BTC, .075 BTC, and .125 BTC! The drawings will occur on 11 Dec 2023.

DRAWING DATE: 11 DEC 2023

LOCATION: MEME MAFIA TELEGRAM

To qualify for the Quarto drawings, you must have all three of the following items in the same ERC wallet when the holder list is pulled from Etherscan (on 9 December 2023). Each qualified wallet represents one entry, and all entries will be placed on the wheel for a spin during this live drawing:

- At least one MMA Generation 1 NFT, and
- At least one MMA Generation 2 NFT, and
- At least 2M MEMEMAFIA tokens

You do not need to be present at the drawing to win!
